Dear Prospective Patient,

Thank you for considering Carden & New Larchwood Surgery.

We would be grateful if you could fill the questionnaire attached and hand it in to our reception.

If you wish to make a New Patient Medical, you are welcome to do so this will be with our Health Care Assistant or Practice Nurse.

We would encourage our **5-16 year old** new patients especially to do this so we can review your health, please bring in a urine specimen for this examination.

When handing in your completed New Patient Questionnaire form to the receptionist, the following documents need to be shown:

- 1. NHS number**
- 2. Proof of Address** (Not applicable for new born babies)

We regret that your registration cannot be processed without these documents.

Thank you,

Carden & New Larchwood Surgery.

Emergency Care Summary

The NHS in England is introducing the Summary Care Record, which will be used in Emergency Care. The record will contain information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines you have had to ensure those caring for you have enough information to treat you safely. Your Summary Care Record will be available to authorised healthcare staff providing your care anywhere in England, but they will ask your permission before they look at it. This means that if you have an accident or become ill, healthcare staff treating you will have immediate access to important information about your health.

Your GP Practice is Supporting Summary Care Records and as a patient you have a choice. Please tick that applies:

- YES, I would like a Summary Care Record** – You do not need to do anything and a Summary Care Record will be created for you.
- NO, I do not want a Summary Care Record** – Ask at reception for an Opt Out form.

You can choose not to have a Summary Care Record and you can change your mind at any time by informing your GP practice. Children under 16 will automatically have a Summary Care Record containing details of medications, allergies and bad reactions created for them unless their parent or guardian chooses either to notify us that they would like their child to have an enriched Summary Care Record (with other information agreed with the GP Practice to be included) or to opt them out. If you are the parent or guardian of a child under 16 and feel that they are old enough to understand, then you should make this information available to them.

GMS1 - SUPPLEMENTARY QUESTIONS**PATIENT DECLARATION for all patients who are not ordinarily resident in the UK**

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) I understand that I may need to pay for NHS treatment outside of the GP practice
- b) I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me. **A parent/guardian should complete the form on behalf of a child under 16.**
